**Q:** When I install Windows 10 with a CPU that has 6 or more cores (3900, 3900X, 3950, etc.) on X470 Gaming-ITX/ac, the system will BSOD. What should I do?

A: If a CPU with 6 or more cores is used on X470 Gaming-ITX/ac, please refer to the following steps to install Windows 10.
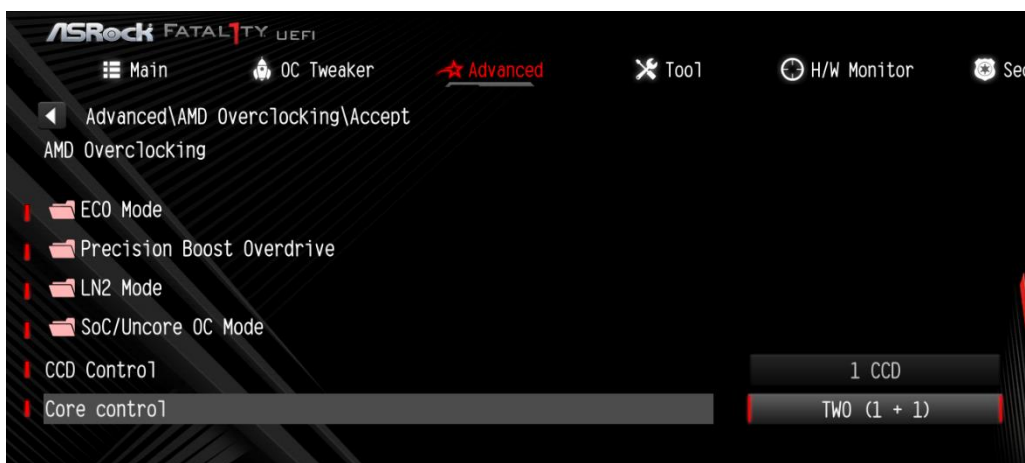

Step 1:   Power on the system and press [Del] or [F2] to boot into BIOS.

Step 2:   Go to Advanced\ AMD Overclocking \Accept

Step 3:   Adjust the following settings:
- [CCD Control] to [1 CCD]
- [Core control] to [TWO(1+1)]

Step 4:   Press [F10] to save the settings and exit.

Step 5:   Install Windows 10.

Step 6:   Refer to ASRock website to download and install all drivers. (Reboot the system when required)

Step 7:   Refer to previous steps 1 ~ 3 to restore following settings to default.
            -[CCD Control] set to [Auto]
            -[Core Control] set to [Auto].

Step 8:   Press[F10] to save the settings and exit.
