**1. Q: Where could I get the maximum share memory on H55 series motherboards?**

A: The shared memory size is dynamically controlled by VGA driver, and the maximum share memory size will be available only when more than 4GB memory is installed under 64-bit OS.

Please kindly refer to the following steps to check the maximum graphic share memory.

1.   Visit the "Display" option in the control and choose "Advanced setting".

2.   Choose "Intel Graphic and Media Control Panel".

3.   Click the "Graphic Properties."

4.   Visit the "Option and support" and choose "Information Center".

5.   Then you could see the information at the right side.

2. Q: How to play AVATAR Blue-Ray Disk with Power DVD Ultra on ION330 series system ?

A: Please kindly visit CyberLink web site to download the latest patch and upgrade it.

http://www.cyberlink.com/downloads/support/index_en_US.html
